

Reno Evening Gazette.

VOL. XII.

RENO, WASHOE COUNTY, NEVADA, TUESDAY, MARCH 14, 1882.

NO. 139.

COAST CLIPPINGS:

Mormon families are settling in Grant and Lincoln counties, N. M.

A light shock of earthquake was felt at San Diego at 25 minutes past 4 Saturday afternoon.

Near San Miguel, San Luis Obispo county, recently, George Davis, aged 14, while hunting, accidentally killed himself.

The Atchison, Topeka and Santa Fe Railroad Company have taken off the guards heretofore running on its trains in New Mexico.

Broadwater, Hubbard & Co. are getting out an average 3,500 ties per day on their contract with the N. P. R. R. They employ 200 men.

The Modesto Herald reports \$639 collected to date for the benefit of the widow of Reuel Col. Gridley, the "sanitary sack of flour" man.

A two-year-old son of Joseph Knight at Red Bluff, slipped into the Sacramento river on Tuesday, and was carried off by the current. The body has not been found.

The various waterfalls in the Yosemit Valley look grand just now. Immense icebergs have formed, and the views are even more grand than during the Summer months.

An attempt was made Saturday to fire a building known as the Printing House Block, San Jose, in which the Herald, Times and other printing offices are located. The affair is very suspicious.

Sixty thousand fish were received at Truckee Saturday morning for distribution in Truckee River and Donner Creek. Three thousand were Eastern trout and the balance land-locked salmon and whitefish.

The tracklayers on the California Southern Railroad are seventy-two miles from National City, and are now in the Temeocia Canyon. There are fifty-nine miles yet to be completed in order to reach Colton.

A public reception was given at Prescott, Saturday evening, in the Court House to the new Governor of Arizona. The meeting was presided over by the Mayor of the city, Hon. C. C. Bean, who introduced the Governor in a neat speech. Governor Tritie responded, pledging his support to the interests of the entire Territory.

Numbers of sheep in New Mexico are dying from an epidemic, and a poisonous weed, known to the natives as *lalivera*, is destroying many horses and mules, the only stock that will eat it. This weed appears in New Mexico every few years, is of a rank growth and should be guarded against by travelers who are not familiar with its fatal effects.

The San Bernardino Times says: The San Jacinto River is dry and the lake is in a fair condition to become likewise. Its waters have receded, and there is a belt of alkali about thirty feet wide and some six inches deep surrounding it. Governor Dwyer is a large owner in this lake, and it is suggested that it would be an excellent point for a soap factory.

The Tucson, Arizona, Star's special correspondent, who accompanied the engineers who are running the line of the Tucson and Gulf of California Railroad, writes that the party have run across a wonderful mineral country near, and in Myer's District, about seventy miles west of Tucson. The region is revealing daily vast ledges of mineral of silver and copper. The party have located a large number of claims along the line of their route.

The Oregonian's Jacksonville special states that Saturday night ten or twelve masked men rode into Linkville, where H. C. Laws, charged with the murder of Deputy Calavan, was in the custody of Deputy Sheriff J. F. Lewis and Justice Wright. The officers were in Greenman's Hotel, with the prisoner, when the lynchers entered the hall and were ordered to halt. The lynchers refused, and Lewis fired his revolver, wounding one of the party slightly. They returned the fire, killing the Deputy Sheriff and wounding Justice Wright. They then left without taking Laws.

Actor's Apprehension.

"Max Freeman" says a writer in the New York Mirror, "calls my attention to the singular fatality which has pursued the people who played in 'Diplomacy.' In a California cast of three seasons ago, Sam Piercy, A. D. Billings, and Nina Varian—all dead—acted respectively Beauchere, Count Orléans and Dora. Last Summer Piercy alluded to the ill luck associated with "Diplomacy," and said: 'My turn comes next.' It did. His wife died, and he followed her. Harry Monroe was taken ill while acting in the same play in San Francisco. Poor Porter was murdered by the desperado Currie, while on a tour with "Diplomacy." These coincidences make the actors—naturally superstitious—who have played in the drama feel uncomfortable. Max Freeman shares the fear, as he was in the cast once as Baron Stein.

MISCELLANEOUS

TRUTH ATTESTED.

Some Important Statements of Well-Known People Wholly Verified.

In order that the public may fully realize the genuineness of the statements, as well as the power and value of the article of which they speak, we publish below what we sincerely hope will be of interest to our readers. The truth of these testimonies is absolute, nor can the facts they announce be denied.

W. H. Warner & Co., Rochester, N. Y.

General: Your remedy, the safe Kidney and Liver Cure has been used by both my wife and myself. I used it "on general principles," as a system and liver regulator; took it for a month, and found it to be the only one which has had no effect of much inconvenience, and which fails to yield to the doctor's remedies, or any other, until I use your Safe Kidney and Liver Cure. It now comes in powder, and is to be the best medicine ever used, and in recommending it I declare it a safe remedy.

Press Dispatches to EVENING GAZETTE.

EASTERN.

What A Mormon Woman Says.

SALT LAKE, March 14.

The Tribune of to-day will publish the following communication:

R. L. FULTON, PROPRIETOR

NAME OF SUBSCRIPTION:
Daily, one year (by mail) \$2.00
Weekly, one year (by mail) \$2.50
By carrier, per week, to all parts of Reno 25
RATES OF ADVERTISING:
Daily, one month, one square \$2.50
Weekly, one month, one square 1.00
This includes both legal and Commercial work.

TUESDAY MARCH 14, 1888

DEMOCRATIC GOSSIP.

A prominent Democrat, who has always been admitted to the war circles of the party, told a GAZETTE representative that the Democracy had so much material that was considered good it was hard for the party leaders to select a man to head the line. The gentleman said Captain Matt Canavan was very prominent, and would likely make a lively brush for the front at no distant day. General J. C. Hagerman is still in the fight, and, while Canavan is his choice, he will step in and take the helm himself before he will allow the old ship to be steered into a Republican port. Hon. Jerry Schooling is a strong man. Mr. Schooling seems to be the favorite with some for the head of the ticket, while others think he can be trusted with the key to the State vault, and would add much strength to the ticket if nominated for Treasurer. Major William Garrard is held in reserve, and if he can be induced to enter the fight, knowing ones say he will be a hard horse in the race, and it is not at all unlikely that he will be selected as the best man when the convention meets. Senator Williams of Nye would make a good man in the Controller's office, and while not a few think his place is at the head of the column, those who are best posted think Mr. Williams would be well satisfied with the nomination for Controller. Lieutenant-Governor Adams is spoken of occasionally, but the general conclusion seems to be that Mr. Adams can do about as much good on his stock range in Elko county as he can anywhere.

ARE THEY PLAYING POSSUM?

The Index says:

"The situation on the Comstock is very mysterious. For about two years it has been claimed that no rich or extensive ore bodies have been struck, and yet a world of treasure has been expended in carrying on the underground workings from one end of the lead to the other. At last the Gold Hill mines are flooded, as we believe intentionally. We believe the whole business to be a swindle. There is nothing natural or plausible about the pretended condition of the Comstock; on the contrary, there are many things which indicate the fact that rich bonanzas are being carefully kept from the knowledge of the public."

The GAZETTE happened recently to drop on a bit of news that looks like it. A company in which the bonanza firm is a very heavy owner owns thousands of acres of timber lands, and yet they refuse to sell an acre at any price. We recently saw a letter in which the Superintendent refused ten dollars an acre for some and said they would not sell any even for twenty dollars an acre.

EDITORIAL NOTES.

John Russell Young, whom the President has nominated as Minister to China, is a man of more capacity than the average minister's plenipotentiary, and of more foreign experience. He visited China in Grant's party, and is understood to have taken then and since an especial interest in the East, and to have given a great deal of study to its affairs. If attacks on Garfield and praise of his successor are also to be counted qualifications, he has earned the office. If confirmed he will discharge its diplomatic duties with skill and ability.

Senator Hoar, of Massachusetts, is described as a man with respectable white side whiskers. His style is lucid, smooth and classical. It is entirely without color or warmth, and when he becomes impulsive, he is simply bitter, incisive and intensely cold, and his declamation is like a snail's tail storm. He is as cool as iced vinegar.

Only A Straw.

BANGA, Me., March 14.

Strickland (Republican) is re-elected Mayor by over one thousand plurality over Brown, the Citizens', Greenback and Democratic candidates, and nine hundred over all. The total vote is 2,390. Last year the Republican majority was 23, in a total of 2,768 votes.

From the Overflow.

CHICAGO, March 14.

At Memphis the river declined two inches yesterday, and now marks 35 feet 7 inches on the gauge.

Captain J. S. Loud, one of the army officers detailed by the Secretary of

War to ascertain the amount of destruction prevailing in river counties between Cairo and this city, arrived yesterday. He reports great distress among the inhabitants of New Madrid and Pemiscott counties, Missouri, Lake and Dyer counties, Tennessee, and Mississippi county, Arkansas. Pemiscott county is a wreck, and has been submerged for three weeks. Captain Loud thinks that Government aid will be necessary until May 1st.

Commissioners Mangum and Hemingway each distributed yesterday 30,000 additional rations furnished by the Government for the relief of sufferers in Arkansas and Mississippi.

Three breaks are reported on the line of the Chicago, St. Louis and New Orleans Railroad—one near Grand Junction, one near Michigan City, where Wolf river crosses the road, and another further down.

[SECOND DISPATCH.]

MEMPHIS, March 14.

The officers and passengers of the steamer City of Baton Rouge, which arrived here to-day from New Orleans, say the condition of things along the whole length of the river is pitiable in the extreme. The river, they say, has an average width of 40 miles nearly all the way from Cairo down, and with the exception of some 60 miles above and below Vicksburg the levees are either washed away or covered with water, and of no practicable benefit. Thousands of people have been driven from their homes, and nearly all their live stock has been or will be starved or drowned.

Burned to Ashes.

LLINOIS COUNTY, Texas, March 11.

Joseph Hodges, wife and two grown up daughters had gone to church Sunday evening, leaving Mary Benson, aged 85, and grandmother of Hodges, at home in charge of the smaller children, she being an invalid. When Hodges and family returned they found the house burned and the charred remains of Mrs. Benson and the children in the ashes. A span of horses were missing.

Scoville's Lecture.

CHICAGO, March 14.

George Scoville, counsel for Guitau, confronted an audience last night of 137 people, and delivered his much advertised lecture, in which he discussed the Guitau trial. There were no points in the lecture not already covered by interviews with him in the various cities. The lecture was to have been held in Central Music Hall, but on account of the sparse audience was adjourned to Fairbank Hall.

Vicksburg Likely to Get Left.

VICKSBURG, March 14.

Delta La Bean has been abandoned to the flood, and the people are leaving it as fast as they can, and by every possible means. The levee in the rear of the delta is about to give way, in which case a new cut-off would form down through Grant's canal, resulting in the perfect destruction of that town, and complete abandonment of Vicksburg as a river town.

Omaha Riot.

OMAHA, March 14.

The threatened attempt of the strikers to drive the militia off the grading grounds yesterday afternoon did not take place. A few hot-headed fellows counseled it, being overruled. The general opinion now is that no further disturbance will take place, but the State authorities will continue keeping troops here till they are satisfied all danger is past.

Increased Appropriation.

WASHINGON, March 14.

The Post-Office Appropriation Bill, as reported to the Senate yesterday, provides for an increase of \$1,090,000, in the aggregate for mail transportation: On railroad routes \$500,000, for compensation to clerks in post-offices \$150,000, for railway post-office clerks \$50,000, for route agents \$180,000, for mail messengers \$50,000, miscellaneous items \$10,000, for necessary and special facilities on railroad lines \$650,000, said facilities to be distributed annually, as nearly as may be, on railroads leading to the principal cities in different parts of the United States.

Press Comments.

NEW YORK, March 14.

All the journals praise the appointment of Judge Blatchford. Most of them either praise the selection of Young or are noncommittal. Oddly enough the Sun is silent on the matter.

The World thinks, with the Chinese bill pending we don't want any Minister to China.

A Raider of Moonshiners.

NASHVILLE, March 14.

A special to the American from McMinnville says: J. M. Davis, the celebrated raider of moonshiners, was waylaid and killed yesterday afternoon at 2:30, about three miles from McMinnville. Thomas Vickers, who was with Davis, says there were 20 men in the gang who did the shooting.

From the Overflowed District.

JACKSON, Miss., March 14.

Reports from the overflowed districts are most unfavorable, and show great destruction and suffering. The Governor leaves town for the scene of trouble and to render all aid possible.

Col. Hemingway, now at Memphis, is making every effort to relieve the sufferers in that section.

Better Than Gold.

CHICAGO, March 14.

Ira Holmes, a well-known real estate man was robbed last Thursday of \$12,000 in negotiable securities. He was held up by foot-pads on Wabash Avenue. The master was kept quiet and yesterday the thief, who proved to be the notorious Cooks, were arrested and the entire amount was recovered.

Rosencrans-Garfield.

WASHINGTON, March 14.

During the last canvass in California, General Garfield being the Republican candidate for President and General Rosencrans being a Democratic candidate for Congress, the latter ad-

mitted their confidential relations during the war, but was very severe in his denunciations of his old Chief of Staff in later years, saying, substantially, that many more who were loyal and brave in the field had done things that qualified him for the penitentiary. In this campaign the celebrated Morey letter was effectively used by Rosencrans, who was enabled by it to defeat his opponent, Horace Davis. When General Garfield went to Washington after his election, he met Mrs. Davis at a dinner party and said to her, "My dear Mrs. Davis, I cannot express to you my deep regret that the shaft that was aimed at me hit your good husband."

Rosencrans about that time wrote a friendly letter to Garfield, in which he occasion to recall their old army intimacy. General Garfield acknowledged the letter and enclosed a newspaper report of the speech above referred to, adding, "While this language remains uncontradicted over your signature, our old relations of friendship can never be resumed."

After his inauguration General Garfield mentioned four names, one of which was Rosencrans', to Ohio personal and political friends, as "men to be hated by the Administration," adding, "Wont you help me hate them?" The statement that Garfield could have secured the nomination of General Rosencrans as Vice-President in 1863, had not Secretary Stanton suppressed his telegraphic dispatches, is incorrect. Secretary Seward planned the substitution of Andrew Johnson for Hannibal Hamlin, and it was only on representations that this would develop a Union sentiment at the South that Mr. Hamlin's friends consented to the transfer.

"Herald" Comments on the Chinese.

NEW YORK, March 14.

In an editorial the Herald says: It is a mistake for Senator Miller and his friends to insist upon so long a time as twenty years. It would be much better to try the experiment for five years. At the end of five years our friends in California will know more about the Chinese than they do to-day. They will also know whether they wish them to remain or to go. Whether the evils of immigration have not been more than compensated by increase of industries in the State wealth, building of railroads and rapid development of the Coast as a whole.

The Chinese question is full of embarrassment. There is no disposition, of course, on the part of Eastern States to force upon their extreme Western brethren a proposition which is inimical to their welfare, and at the same time it is very hard to see how, with our treaties, our free institutions, our Constitutional amendments, and our clearly defined policy of freedom and independence, any valid law can be passed legislating against a race.

Increased Appropriation.

WASHINGTON, March 14.

The Post-Office Appropriation Bill, as reported to the Senate yesterday, provides for an increase of \$1,090,000, in the aggregate for mail transportation: On railroad routes \$500,000, for compensation to clerks in post-offices \$150,000, for railway post-office clerks \$50,000, for route agents \$180,000, for mail messengers \$50,000, miscellaneous items \$10,000, for necessary and special facilities on railroad lines \$650,000, said facilities to be distributed annually, as nearly as may be, on railroads leading to the principal cities in different parts of the United States.

W.H. Guitau.

NEW YORK, March 14.

The Post-Office Appropriation Bill, as reported to the Senate yesterday, provides for an increase of \$1,090,000, in the aggregate for mail transportation: On railroad routes \$500,000, for compensation to clerks in post-offices \$150,000, for railway post-office clerks \$50,000, for route agents \$180,000, for mail messengers \$50,000, miscellaneous items \$10,000, for necessary and special facilities on railroad lines \$650,000, said facilities to be distributed annually, as nearly as may be, on railroads leading to the principal cities in different parts of the United States.

FRIENDSHIP.

[BY DR. G. HARR.]
To know the heart we can comprehend,
To know the soul ne'er read names;
In a word, to possess a perfect friend—
Is there any wealth that can equal this?
A tiny, slender, silken thread
Is friendship—and we make it
To bind heart to heart and live;
But even a breath may shake it.
For oft it takes but one wee word,
Put one wee word, break it.
But if a breath may shake it, let
That breath come near it never;
And never spoken be that word
Which friendshipp's tie might sever.
But let the cord grow stronger, till
The dawning of forever.

Ready for Inspection.

Having returned from San Francisco, I invite my patrons and the public generally to call and examine my fine selection of cloths. They are of the latest patterns and of the best qualities of French, English and American manufacture. I am now prepared to take orders for gents' suits, as I am enabled to do work and suit everyone in prices as well as goods. Call early and select your goods from the largest and most varied assortment ever brought to the State of Nevada by any merchant tailor. Satisfaction guaranteed.

S. JACOBS,
The Boss Tailor of Nevada, Virginia street, opposite M. Nathan's.

PERSONS.

A. Lewis is in Carson.
B. F. Bacon, Verdi, was in town last evening.

A. Evans has recovered from his late indisposition, and is again on the street.

E. McArthur left last evening for San Francisco. He will return in a day or two and go right through East for a five weeks' visit.

Senator Powning went to Virginia this morning armed with a proxy from C. S. Varian, to represent Washoe county at the meeting of the State Central Committee.

Too Cold to Make Pork.

The past cold winter seems to have had a worse effect on hogs than any kind of stock. The Modoc *Independent* says: Geo. W. Hacker, who has a large number of hogs running in the swamp, relates that the ground has become frozen so hard that they cannot root for a living and they are dying in great numbers.

Drunken Washoes.

Drunken squaws are again quite numerous. They can be seen rolling about on nearly every street in town. The United States officials ought to take hold of the matter, and send the persons who are guilty of selling the Indians whisky to prison for a year or two.

\$3.00 Per Dozen.

An opportunity seldom offered, and never before in Reno. On and after the 15th inst., for 15 days, I, M. Murphy, will make cabinet photographs at \$3 per dozen, and all other work proportionately low. Remember, the time will not be extended beyond April 1st.

Backward Season.

The Sacramento *Bee* says the fruit trees are not in full bloom as usual at this season, but in a few weeks more the orchards and gardens will have assumed their Spring-time garb, and the air will be sweet with their perfume.

The Quarantine Officer.

The *GAZETTE* is in receipt of a letter from E. C. Rhodes, late Quarantine Officer at Truckee, denying the truth of an article taken from the San Francisco *Call* and published in the *GAZETTE* of the 10th, under the head of "The Smallpox Quarantine."

A Statement from the Mayor.

MOLINE, Ill., July 14, 1881.

H. H. WARNER & Co.: Sirs—My wife and self both unite in pronouncing your Safe Kidney and Liver Cure the best medicine we ever used.

S. H. WHEELOCK.

JOTTINGS.

Good Templars meet to-night.

Try one of Allen's serif cigars.

The ladies all go to L. Barnett.

A. Lindley is receiving a large lot oats.

A new dress for nothing at Barnett's.

Dress patterns of the latest styles at Barnett's.

Go to Allen's and try one of his new bit cigars.

Dick Kelly is said to have some strong birds.

Everett keeps everything and his prices are low.

Go to Knut's and see how cheap you can buy for cash.

Crockery and glassware at your own prices at Chas. Knut's.

Mrs. P. N. Marker is seriously ill at her home in Washoe City.

Streets are very muddy.

Mrs. Harris, mother of Mrs. Wm. M. Boardman, is very ill.

J. K. Everett's is the place to go for hardware and crockery.

Hardware and builders' materials at less than cost at Charles Knut's.

D. W. Earl & Co. loaded two teams for the northern country to-day.

L. Barnett is selling dry goods at prices never before offered in this market.

BADLY SITUATED.

California Counties that Ought to be in Nevada.

The Bodie *Free Press* has on several occasions suggested that the counties of Mono, Inyo and Alpine do not properly belong to the State of California. It says, situated as they are, east of the great natural barrier, the Sierra Nevada, our relations from a geographical point of view, are with the State of Nevada. In order at the present time to reach the Capital of our State we must pass through the Capital of Nevada, and afterward travel twelve hours by road to reach our own destination. A more serious phase of the subject, however, is the fact that the industry of our own section is not homogeneous to that of the main portion of the State. There is, in fact, throughout that vast portion of California which is agricultural, a feeling of positive hostility to mining, brought about in great measure by the conflict of interests between the hydraulic miners of the mountains and the farmers of the valleys. The hostility takes the form of actual, or attempted, invidious legislation at every session of the General Assembly of late years, and it is not improbable that our interests may yet suffer a severe blow from this source. On the other hand, Nevada is a mining State almost exclusively, and its legislation may naturally be expected to foster those interests upon which the prosperity of the counties east of the mountains depend exclusively.

AN EXCITING DEER CHASE.

S. S. Bayley, of South Fork, tells the Modoc *Independent* of an exciting deer chase that occurred on his ranch last Sunday. Mr. Bayley, T. H. McBride and Charley Williams were in the barn saddling their horses preparatory to taking a ride. Mr. Bayley's little daughter called to them that there was a band of deer coming up out of the swamp. They looked out and saw seven deer coming across the field, and making for the hills. The three men were immediately in the saddle and started in pursuit. They succeeded in cutting off two of the animals, and a lively chase ensued.

The excitement seemed to be contagious, and in a few minutes there were fifteen men in pursuit of the deer.

Some of the South Fork boys are very handy with the rope, and never ride without their riata. In less time than it takes to tell, these useful articles had been brought into use, and the vaqueros had two fine deer tied to the fence. They were left there until all who wished had a good chance to look at them, when they were butchered, and the meat distributed among the captors.

A bran new No. 1 Taylor rake will be sold at less than cost at Charles Knut's.

Rumors of several important business changes in Reno in the near future are ripe.

Automatic pencils at Nasby's "bazaar." Thermometer at 7, 9, 11, 1, 3—35, 38, 44, 42, 41.

Little Eddie Caughlin is very sick with scarlet fever. The *GAZETTE* hopes for his speedy recovery.

The boss of the pit weighs 4lb. 8oz., color grey. The boy says the little red rooster is also a hard hitter.

It has been trying to storm all day. A little snow, then rain, with a streak of occasional sunshine sandwiched in.

Several Renoites went to the Comstock this morning to attend the meeting of the Republican State Central Committee.

The East-bound overland was detained here nearly two hours this morning by a cracked wheel under the express car.

S. M. Jamison & Co. received twenty cases of their new dry goods stock this morning. They are unpacking and arranging it to-day.

RENE GETS THE STATE CONVENTION.

A special dispatch to the *GAZETTE* from Virginia says the State Central Committee fixed September 4th as the day for holding the Republican State Convention and Reno as the place of meeting.

RENE GROWS FROM DEAN.

William J. Coughlin, of Somerville, Mass., says: In the fall of 1878 I was taken with BLEEDING OF THE LUNGS followed by a severe cough. I lost my appetite and flesh, and was compelled to give up my bed. In 1879 I was sent to the Hospital. The doctor said he had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WILLIAM HALL'S BALSAM FOR THE LUNGS. I paid him \$100.00 for the balsam and the consumption was cured. I commenced to feel better, and to-day I feel better than I have for three years past. I write this hoping some one afflicted with Diseased Lungs will take DR. WILLIAM HALL'S BALSAM. It will cure Consumption CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since my sickness.

RENE GROWS FROM DEAN.

William J. Coughlin's saloon was crowded last night. The attraction was four negro emigrants, with a guitar and banjo. They made good music.

Dawson & Caughlin's saloon was

crowded last night. The attraction was four negro emigrants, with a guitar and banjo. They made good music.

John M. M. is cashier of the famous Schneider's Brewery and Garden, St. Louis, Mo., and he states that for some time he suffered severely from rheumatism which defied a number of remedies, and was, apparently, becoming chronic. Through advice of a friend he tried St. Jacobs Oil, and after applying it to the affected places found immediate relief. In a short time the alarming symptoms had disappeared, and to-day he considers himself completely free from the painful complaint, without likelihood of its recurrence. Yet he is never without a supply of this valuable panacea, and it has ready for use.
